RE: DA2018/1481 - 1 / 0 Veterans Parade NARRABEEN NSW 2101

It is obvious that the prime reason that this tower is being proposed is to provide mobile coverage to the residents of the new over 55 development in the Dardanelles. This proposal benefits the Dardanelles residents at the expense and health of residents and families in Wheeler Heights who have been here for 70+ years. The RSL should have considered mobile coverage before they developed the Dardanelles site. I work in the telecommunications industry and there are multiple wireless solutions that could easily work for the Dardanelles residents without the need of a 41 meter tower. The RSL and Dardanelles residents need to propose a wireless solution that does not impact the health and values of families in Wheeler Heights. Lantana Avenue residents have already witness our quiet avenue change from a peaceful street into a very busy traffic corridor as a result of the every expanding RSL / Dardanelles development - please do not add salt into the wounds. Can the Council please represent the residents and families of Wheeler Heights and not the powerful RSL by rejecting this absurd application.
