RE: DA2020/0511 - 89 Iris Street BEACON HILL NSW 2100

Hello,

I am the rear neighbor of 87 and 89 Iris Street Beacon Hill and judging from the amended plans, they propose 7 new trees that will be planted on my boundary. I would like to know the names of the proposed trees and also what their height limits are. There is already a very tall Gum tree that according to the plans will not be removed that is creating a lot of shade in my property and I do not want more.

I am concerned, if many tall trees are planted, the rear of my property will be totally in shade, and I find this unacceptable.

Anticipating your earliest reply.

Regards

Angela Hayes
