MISS Rachael Wright
42 Albert ST
Freshwater NSW 2096

RE: Mod2014/0117 - 5 Lawrence Street FRESHWATER NSW 2096

As a local resident who lives around the corner from this proposed development, I strongly object to this going ahead. There is already currently a massive amount of traffic congestion through the village from Lawrence St and down Albert St as it is, which only becomes more severe in the warmer months. Marmora St is a quiet narrow street with only 13 properties, it is already difficult and often dangerous to drive along and will struggle with another 16 properties and 28 cars emerging daily into the street from an underground car park.
