RE: DA2021/0006 - 10 Jamieson Parade COLLAROY NSW 2097

Dear Anne-Marie,

We would like to express our concern towards this development application as this development proposal will result in a substantial loss in views due to the bulk and scale of the development. The non compliance to the boundary envelope and the breach of maximum height of building blocks all view corridors that would otherwise be had with a complying development that is in keeping with the current streetscape.

Regards James and Kate Luscombe
