RE: DA2020/1233 - 68 - 90 Evans Street FRESHWATER NSW 2096

I wish to object to the proposed alteration to the grassed area into a synthetic bowling green positioned in the centre of the unit complex and overlooked by many of the over 55 aged tenants.

With the area also being licensed the prospect of having players drinking alcohol will always cause the tenants to be aware of non-residents being in their immediate vicinity and living surroundings along with the possibilities of any poor behaviour occurring.

The freedom and safety will always be a concern to the more vulnerable tenants who wish to enjoy peace and security in their retirement years.
