Dear Catriona

Sorry for this late feedback, we have only just returned from a 3 week road trip.

Tree 11 is designated as a 4 m tall Banksia which is to be removed without need for approval because it is under 5 m.

This Banksia is 5.5 m tall from the base of the trunk to the top of the tree.  
It has a 40 cm diameter trunk and the boundary literally cuts the base of the trunk in half.

This tree also draws a large range of native birds including Black Cockatoos.

Could you please review the removal of this tree.

Thanks Catriona

Brian and Elaine Mills
