**RE: DA2021/1164 - 521 Barrenjoey Road BILGOLA BEACH NSW 2107**

Does anyone in council honestly think it is a good idea to a) destroy the native bushland on the bends and b) replace it with more houses? I just can't believe anyone that lives here, in their hearts, could possibly think and feel that it is a good idea. It may be difficult to stop it given laws and rights but stop it we must. To submit to our own laws and policies and allow this to happen, because it is too hard to stop, would be such a sad reflection of us as a community. To everyone who holds an important role in this process please appreciate the long-term significance of the decisions made here. It's just not good enough to say, there is nothing we can do, they're allowed to do it. You need to stand up and say no until it is stopped. The whole of the community will be behind you and proud of you, and when you're old and grey and travelling around the bends one day in the future, you will be proud of what you did to save this beautiful piece of nature also. Please don't disregard this submission because it doesn't reference planning details. Plenty of others do. I am writing to you as critical stewards of the land here in Avalon and Bilgola. I dearly hope you have the courage and conviction to stand up to this for what is right. Kind Regards, David
