RE: DA2021/1620 - 31 Moore Road FRESHWATER NSW 2096

re DA2021/1620 - The noise from amplified music should be contained inside the hotel. Amplified music / speaker systems should not be allowed in outdoor areas or balconies. I urge council to restrict the use of any loud music to enclosed indoor areas of the hotel. Should the council allow sound amplification to be used in open or outside areas it would need to be limited to a few days only (not 7 days a week) , and only until 9pm at night.

This is a residential area. The residents should be able to sleep, study, relax or work at home. Children need to be able to sleep, study and relax at home. Please keep all the noise inside. Thank you
