Subject: Mod2022/0007

I have been away and did receive Councils notification till today.
Firstly with regard to Mod2022/0007 everybody knows that foliage
Is an ineffective noise barrier.
Secondly it is about time Council started to listen to its residents.
This is a residential area. Due to the fact that no one will take responsibility
For Barrenjoey Rd we have no kerbing or footpath on the eastern side of
Barrenjoey Rd .If I wish to walk down the street I have to walk through
The Cafe which has the majority of its seating blocking the footpath.
This is unacceptable. Customers often park illegally on the footpath in order
To access the Cafe making the situation more dangerous for pedestrians
Parking restrictions in this area are rarely enforced.
Please start making sure the conditions imposed on the cafe are followed.

If you could acknowledge receipt of this letter and forward it to my local
Councillor I would appreciate that.

Francis Curtin
1018 Barrenjoey Rd
Palm Beach
