RE: DA2020/1097 - 0 Campbell Parade MANLY VALE NSW 2093

I have 3 children and we live on Campbell Parade. The traffic congestion already on Campbell Parade, is very unsafe for my children and the children in the area. With the buses on the street, and the constant line of traffic, means it is really hard to see the children in the area. The high congestion and lack of parking means that there is a serious accident waiting to happen.

On weekends when there are sports events in Passmore Reserve, Campbell Parade and Quirk Road are an absolute grid lock and due to the high traffic and it is hard to see children. There is also limited parking in the area due to the number of unit blocks. The night lights will cause further grid lock in a small street.

Changes and alterations to the sports lighting has been opposed for many years by local residents, and the 1400 community at MacKellar Girls Campus. This is still the case and the local residents heavily oppose any changes to the lighting on Passmore Reserve.

I object to this application.
