RE: DA2020/1741 - 1509 Pittwater Road NORTH NARRABEEN NSW 2101

As per old application from 2013 (T0371/13), 5 Casuarina trees were to be removed. But it looks like they are still there and they damage our pool cleaning devices with their cones and branches. At the same time, they are dangerous for kids/teenagers who could climb them and potentially fell into the pool with unpredictable consequences. I would suggest their removal.
