**Subject:** Development and demolition extension to Thompson's Nursing Home Bassett Street  
Mona Vale

Application no DA2020/0816

Dear Mr Collier,

As a local resident since 1978 I am very concerned with all the over development which is showing no sign of slowing down.

I live in Surfview Road and my concerns for traffic congestion if the above application is approved. Heavy vehicles carrying building equipment and materials to the site would enter from Darley Street as it would be impossible to enter via Bassett Street .

Parking is already an issue in this area and building works commencing at 7am what a nightmare.

I walk my 2 dogs early in the morning down Bassett Street and the large delivery / pickup trucks entering the nursing home always reverse in the one way enter entrance. This causes the truck to beep continuously until it stops this is not only illegal but the noise must annoy the residents in and out of the nursing home.

I ask you to consider my reasons for objecting and I do feel for the residents in Bassett Street if the development is approved .

Regards,  
Mrs Christine Johnston.
