RE: REV2022/0024 - 394 Barrenjoey Road NEWPORT NSW 2106

In relation to the DA for Newport Surf Club.

We believe the renovations are vital for the following reasons.

Protecting and enhancing the current heritage building

Improving disability access to all areas of the building by removing multiple floor level changes within the building

Extra storage for patrol, training and competition equipment

Improved first aid and council lifeguard rooms

Improved and upgraded toilet and shower facilities for public and club members alike

Improved hall and club room spaces which can be used concurrently and allow for broader community use.

Please take this into consideration.

Thank you
