Having Feels Pilates in Cromer will be amazing for the community. I work locally and having access to such an all inclusive Pilates studio will be great for the community. I am a woman in my 60s, I have been to other Feels Pilates studios and they truly look after women of my age. I struggle with osteoporosis and I need Pilates and strength exercise in my daily movement, Feels Pilates offers all of the classes I need. They also allow pregnant women to work out at their studio, they allowed my daughter to continue throughout her pregnancy and which was great for her mental and physical health!
