To whom it may concern,

I am a young and engaged member of the community who feels strongly about the development application to extend the outdoor seating area at Hugo's Manly. I heard about and saw the proposed plan for this development on the weekend and felt compelled to write in and support it.

Owners of hospitality businesses have been affected by COVID-19 and I believe that we should be aiming to reinvigorate the eating and drinking restaurant.

I thoroughly enjoy visiting Hugo's. It's a quintessential Sydney experience. And I support this expansion development, which would allow many more community members to enjoy this experience.

I hope to see the Northern Beaches Council support this development by approving this application.

Thanks

Samantha Callender
