RE: DA2019/0123 - 80 - 82 Mona Vale Road MONA VALE NSW 2103

We love the Frenchs Forest Market and so do my kids. They love to attend on a weekend to get their produce for the week and we all buy something for either breakfast or lunch and really look forward to it. They can't go anywhere mid-week and it is the market feel to it that excites them - not going to an organic shop. They have lots of food allergies and so finding tasty things they can have is hard and you have to travel all over Sydney so for them to go to one place, it's fantastic. It's great for the stall holders to have outlets to let us know what is new and sell their wares and it is full of like-minded people shopping who care about the environment. I would be very sad if this market was not open anywhere on a weekend as it is a great family Sunday morning thing for us. I would most definitely travel to Mona Vale. I think it could get even more people from the St Ives to Hornsby using it as I've often bragged to people about how good our market is and they should come for an outing to check it out.
