RE: DA2021/1164 - 521 Barrenjoey Road BILGOLA BEACH NSW 2107

1. I would like to object to this proposal firstly on the large number of trees to be removed that are identified as high landscape significance in the arborist report. The large scale removal of native trees and replanting of small ones is happening at a distressing rate on the northern beaches, impacting the character of the area, the available habitat for native wildlife and our increasingly important level of canopy cover. The trees are part of an important community which together prevent erosion and landslip in a steep area.
2. Bilgola Bends has been a much loved bushland entry to the upper northern beaches and large scale developments like this one are out of character with the area, creating a long-lasting, unappealing, visual impact.
3. Such a large scale project would cause traffic chaos for a lengthy period.
I strongly oppose this development.
