To Northern Beaches Council

This is to advise I object to the proposed development in Keirle Park for Outdoor concert facility.

The reasons for my objections are as follows;

1. The parking in the area is already critical and the numbers of cars likely to require parking for this facility will leave resident with inadequate street parking.
2. The noise that would be generated by an outdoor entertainment facility will be to the detriment of ratepayers and residents of this area. The open nature of this park and the nearby waterway will mean the sound will travel a considerable distance.

Regards
