RE: DA2019/0123 - 80 - 82 Mona Vale Road MONA VALE NSW 2103

Markets are fabulous and play such role in gathering community together particularly when people are in a relaxed "weekend mode" or "holiday mode". I am a visitor to Sydney often and love the markets that are organised by this group including the Double Bay markets which have grown remarkably over the last few years with Council landscaping an even more beautiful area to accommodate them.

So I completely believe that having the Frenchs Forest Markets at the Pittwater RSL carpark is a great thing because markets:

- play an important social role.
- bring organic and fresh produce to a large number of people on the Northern Beaches.
- help employ people
- create accessibility to shop for those who work during the week.
- activate tourism in a happy positive relaxed environment.

Next time you visit a market in any area, note how relaxed and happy, interactive and communicative people are.

This will only be a positive for the Northern Beaches!
