RE: DA2019/1426 - 77 Collingwood Street MANLY NSW 2095

I object to using the side window for takeaway as the numbers of people gathering make it impossible to use the footpath at times. It means people have to walk past on the road on a corner that is busy and could endanger them, creating a risk for those walking and traffic hazard from drivers trying to avoid them. The footpath is firstly there for people to walk on not for queuing for serving. There is nowhere for people to stand when ordering, queuing or receiving coffees then on the footpath.

It this could be solved by the owner it would be much better space for all ie a place for customers to stand?
