Subject: Application DA 2019/0081

Attention Benjamin Price Planner

Regarding the demolition and construction of residential accommodation plans for the above Application I continue to be opposed to the development on the grounds of overcrowding, squeezing too many residential buildings into a tiny space, thereby destroying the lifestyle of current residents/ owners of nearby properties . This is sadly symptomatic of so many building developments in Sydney.

I hope that the voices of people living around this proposed and unpopular development will be heard.

Regards

Margaret Carlin
