RE: DA2020/1446 - 73 Fuller Street COLLAROY PLATEAU NSW 2097

I have concerns regarding the shadowing at the back of my house. I have spoken to the owners of 73 and they were going to discuss what they could do to modify. If possible I would like to have the upper back level of the plans bought in from my side boundary to increase my chance of sunlight in the morning. My house is a very cold house through winter and I depend on this sun to warm up on these colder days. If you could discuss this with the owners, that would be much appreciated.
Thanks, Kaye.
