PROPOSED DEVELOPMENT IN DETAIL

The proposal seeks approval for the additions to the first floor and a new carport.

However, during the assessment process specific planning concerns were raised by Council and the southern neighbour in regards to the building envelopment encroachment and overshadowing impacts.

As a result an amended design was submitted to address these concerns.

The amended design relocated the proposed first floor footprint and includes the following:

New first floor bedroom with ensuite.

DA2021/1112 Page 1 of 23

• New first floor music room.

Consistent with the Northern Beaches Council Community Participation Plan the amended design the application was re-notified. No further submissions were received in regards tot he amended design.

ASSESSMENT INTRODUCTION

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Environmental Planning and Assessment Act 1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral
 to relevant internal and external bodies in accordance with the Act, Regulations and relevant
 Development Control Plan;
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

SUMMARY OF ASSESSMENT ISSUES

Warringah Development Control Plan - B3 Side Boundary Envelope

Warringah Development Control Plan - B9 Rear Boundary Setbacks

Warringah Development Control Plan - D8 Privacy

Warringah Development Control Plan - E7 Development on land adjoining public open space

SITE DESCRIPTION

| Property Description: | Lot 1 DP 869978 , 6 Lyly Road ALLAMBIE HEIGHTS NSW 2100 |
|----------------------------|---|
| Detailed Site Description: | The site is legal identified as Lot 1 DP 869978 and known as 6 Lyly Road Allambie Heights. The site is located within the R2 Low Density Residential zone as mapped within the Warringah Local Environment Plan. |
| | The site is irregular in shape with a total site area of 418.3sqm. The front boundary measures 19.86m, combined with a northern side boundary of 21.225m, and southern side boundary of 20.9m and a rear boundary of 19.663m. |
| | The land has a small fall from the rear to the street frontage of the subject site front, with stormwater draining to the street frontage. |

DA2021/1112 Page 2 of 23

The subject site is adjoining Councils Gumbooya Reserve to the rear of the site.

The property currently contains a two storey dwelling house, within a landscaped setting.

Surrounding sites consist of one and two storey dwelling houses, of varying ages, within a landscape setting.

Map:

SITE HISTORY

A search of Council's records has revealed that there are no recent or relevant applications for this site.

The land has been used for residential purposes for an extended period of time.

ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

| Section 4.15 Matters for Consideration' | Comments |
|---|--|
| Section 4.15 (1) (a)(i) – Provisions of any environmental planning instrument | See discussion on "Environmental Planning Instruments" in this report. |
| Section 4.15 (1) (a)(ii) – Provisions of any draft environmental planning instrument | Draft State Environmental Planning Policy (Remediation of Land) seeks to replace the existing SEPP No. 55 (Remediation of Land). Public consultation on the draft policy was completed on 13 April 2018. The subject site has been used for residential purposes for an extended period of time. The proposed development retains the residential use of the site, and is not considered a contamination |

DA2021/1112 Page 3 of 23

| Section 4.15 Matters for Consideration' | Comments |
|---|--|
| | risk. |
| Section 4.15 (1) (a)(iii) – Provisions of any development control plan | Warringah Development Control Plan applies to this proposal. |
| Section 4.15 (1) (a)(iiia) – Provisions of any planning agreement | None applicable. |
| Section 4.15 (1) (a)(iv) – Provisions of the Environmental Planning and Assessment Regulation 2000 (EP&A Regulation 2000) | <u>Division 8A</u> of the EP&A Regulation 2000 requires the consent authority to consider "Prescribed conditions" of development consent. These matters have been addressed via a condition of consent. |
| S, | Clause 50(1A) of the EP&A Regulation 2000 requires the submission of a design verification certificate from the building designer at lodgement of the development application. This documentation has been submitted. |
| | Clauses 54 and 109 of the EP&A Regulation 2000 allow Council to request additional information. Additional information was requested in relation to specific planning concerns, as a result an amended design was received for assessment. |
| | Clause 92 of the EP&A Regulation 2000 requires the consent authority to consider AS 2601 - 1991: The Demolition of Structures. This matter has been addressed via a condition of consent. |
| | Clauses 93 and/or 94 of the EP&A Regulation 2000 requires the consent authority to consider the upgrading of a building (including fire safety upgrade of development). This matter has been addressed via a condition of consent. |
| | Clause 98 of the EP&A Regulation 2000 requires the consent authority to consider insurance requirements under the Home Building Act 1989. This matter has been addressed via a condition of consent. |
| | Clause 98 of the EP&A Regulation 2000 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition of consent. |
| | Clause 143A of the EP&A Regulation 2000 requires the submission of a design verification certificate from the building designer prior to the issue of a Construction Certificate. This matter may be addressed via a condition of consent. |
| Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built | (i) Environmental Impact The environmental impacts of the proposed development on the natural and built environment are addressed under the Warringah Development Control Plan section in this report. |

DA2021/1112 Page 4 of 23

| Section 4.15 Matters for Consideration' | Comments |
|--|--|
| environment and social and economic impacts in the locality | (ii) Social Impact The proposed development will not have a detrimental social impact in the locality considering the character of the proposal. (iii) Economic Impact The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use. |
| Section 4.15 (1) (c) – the suitability of the site for the development | The site is considered suitable for the proposed development. |
| Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs | See discussion on "Notification & Submissions Received" in this report. |
| Section 4.15 (1) (e) – the public interest | No matters have arisen in this assessment that would justify the refusal of the application in the public interest. |

EXISTING USE RIGHTS

Existing Use Rights are not applicable to this application.

BUSHFIRE PRONE LAND

The site is not classified as bush fire prone land.

NOTIFICATION & SUBMISSIONS RECEIVED

The subject development application has been publicly exhibited from 10/09/2021 to 24/09/2021 in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2000 and the Community Participation Plan.

As a result of the public exhibition process council is in receipt of 1 submission/s from:

| Name: | Address: |
|------------------------|--------------------------------|
| Paul William Brenchley | PO Box 896 CROWS NEST NSW 2065 |

The following issues were raised in the submission and has been addressed below:

Overshadowing

The submission was received as a result of the original proposal notification. The original proposed first floor additions where to be located towards the southern elevation over the existing carport. However, a new proposal was submitted that relocated the proposed first floor additions towards the northern elevation of the existing dwelling house.

Consistent with the Northern Beaches Council Community Participation Plan, the amended design was

DA2021/1112 Page 5 of 23

re-notified.

No submission was received as a result of the amended design.

However, the matters raised within the submissions for the original proposal is addressed as follows:

• Concern was raised in regards to the additional overshadowing to the southern adjoining subject site.

Comment:

Solar access for adjoining properties is assessed in detail under Part D6 Access to Sunlight within this report.

The amended design minimise the shadow cast from the building over neighbouring private properties, displaying compliance with Council's solar access requirements that apply to the site.

Overall, the amended design ensures private open space areas will not be unreasonably affected by the proposal pursuant to Part D6 Access to Sunlight of the Warringah DCP.

In summary, the proposal is compliant and has been addressed to ensure no unreasonable overshadowing. Therefore, this issue does not warrant refusal of the application.

REFERRALS

| Internal Referral Body | Comments |
|------------------------|--|
| Landscape Officer | This application is for the alterations and additions of an existing residential dwelling. Alterations include the minor demolition of existing structures in order to facilitate additions which are inclusive of a new carport, deck, as well as additional music room and bedroom above. |
| | Councils Landscape Referral section has considered the application against the Warringah Local Environmental Plan, and the following Warringah DCP 2011 controls: |
| | D1 Landscaped Open Space and Bushland Setting E1 Preservation of Trees or Bushland Vegetation |
| | The Statement of Environmental Effects provided with the application notes that all existing open space is to remain, with an increase to overall landscaped area. Upon review of the Architectural Plans and Site Survey provided, it is clear no existing trees are within the footprint of proposed works, and no trees will be required to be removed. |
| | No concern is raised regarding the proposed works, however slight concern is raised regarding the limited existing planting on site. As the proposal seeks to increase the bulk and scale of the existing residential dwelling, this limited landscaping has the potential to negatively impact the overall streetscape character of the area due to |

DA2021/1112 Page 6 of 23

| Internal Referral Body | Comments |
|--------------------------------|--|
| | the prominent built form. |
| | It is noted that the front of the site is largely comprised of hard surfaces, however there is potential for small tree planting within the exiting garden area in the south-east corner of the site. Planting in this area could be beneficial in terms of softening the proposed built form, whilst still ensuring sight-lines are maintained in and out of the driveway. |
| | It is therefore recommended that a small tree be planted within this existing planter bed. This planting is necessary in order to satisfy control D1, as key objectives of this control include "to enable planting to maintain and enhance the streetscape", as well as "to provide for landscaped open space with dimensions that are sufficient to enable the establishment of low lying shrubs, medium high shrubs and canopy trees of a size and density to mitigate the height, bulk and scale of the building". |
| | The landscape component of the proposal is therefore supported subject to the protection of existing trees and vegetation, and the addition of a small, locally native tree within the south-east corner of the site. |
| NECC (Development Engineering) | Development Engineering has no objection to the application subject to the following conditions of consent. |

| External Referral Body | Comments |
|------------------------|--|
| | The proposal was referred to Ausgrid. No response has been received within the 21 day statutory period and therefore, it is assumed that no objections are raised and no conditions are recommended. |

ENVIRONMENTAL PLANNING INSTRUMENTS (EPIs)*

All, Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

SEPP 55 - Remediation of Land

Clause 7 (1) (a) of SEPP 55 requires the Consent Authority to consider whether land is contaminated. Council records indicate that the subject site has been used for residential purposes for a significant

DA2021/1112 Page 7 of 23

period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under Clause 7 (1) (b) and (c) of SEPP 55 and the land is considered to be suitable for the residential land use.

SEPP (Building Sustainability Index: BASIX) 2004

A BASIX certificate has been submitted with the application (see Certificate No. A429204 dated 25 August 2021). The BASIX Certificate is supported by an ABSA Assessor Certificate (see Certificate No. A429204 dated 25 August 2021).

The BASIX Certificate indicates that the development will achieve the following:

| Commitment | Required Target | Proposed |
|-----------------|-----------------|----------|
| Water | 40 | Pass |
| Thermal Comfort | Pass | Pass |
| Energy | 50 | Pass |

A condition has been included in the recommendation of this report requiring compliance with the commitments indicated in the BASIX Certificate.

SEPP (Infrastructure) 2007

Ausgrid

Clause 45 of the SEPP requires the Consent Authority to consider any development application (or an application for modification of consent) for any development carried out:

- within or immediately adjacent to an easement for electricity purposes (whether or not the electricity infrastructure exists).
- immediately adjacent to an electricity substation.
- within 5.0m of an overhead power line.
- includes installation of a swimming pool any part of which is: within 30m of a structure supporting an overhead electricity transmission line and/or within 5.0m of an overhead electricity power line.

Comment:

The proposal was referred to Ausgrid. No response has been received within the 21 day statutory period and therefore, it is assumed that no objections are raised and no conditions are recommended.

Warringah Local Environmental Plan 2011

Detailed Assessment

B3 Side Boundary Envelope

Description of non-compliance

Clause B3 of the Warringah Development Control Plan 2011 prescribes a 4m side boundary envelope. The northern elevation of the proposed building encroaches said envelope in the form of a height of 0.2m to 0.4m and a length of 3.8m equating to a variation of up to 10%.

The extent of non-compliance is highlighted green on the below diagram:

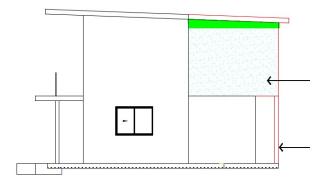

Figure 1: Building envelope encroachment shown in green.

DA2021/1112 Page 10 of 23

Merit consideration

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

• To ensure that development does not become visually dominant by virtue of its height and bulk.

Comment:

The breach proposed is considered to be reasonably minor, and the area of wall which accommodates it is below the maximum wall height, height and buildings and is a more compliant distance from the side boundaries at 1.9m. These factors, plus sufficient articulation of the built form, ensures that the development is not visually dominant by virtue of its height of bulk.

 To ensure adequate light, solar access and privacy by providing spatial separation between buildings.

Comment:

The encroachment to the envelope is not considered to cause any impact to the amenity of neighbours over and above that caused by the existing development.

To ensure that development responds to the topography of the site.

Comment:

The proposal is for a first floor addition to the existing dwelling and, the encroaching element of the building, is built atop of the existing ground floor. The works therefore appropriately respond to the topography of the site.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of WLEP 2011 / WDCP and the objectives specified in s1.3 of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

B9 Rear Boundary Setbacks

The application does not comply with the prescribed rear boundary setback requirements, largely due to the fact that the existing building does not comply. The additional portion of space which encroaches the setback area under this application pertains to the existing building line of the lower ground floor.

Description of non-compliance

Part B9 of the DCP prescribes a 6.0m rear boundary setback for buildings and ancillary structures. The existing residential block attains a rear setback of between 5.7m and 6.2m and is not subject to change. The proposed first floor attains a setback of between 4.6m - 4.7m from the rear boundary, thereby seeking a variation to the control of up to 23.3%.

Merit consideration:

DA2021/1112 Page 11 of 23

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

To ensure opportunities for deep soil landscape areas are maintained.

Comment:

While not complying with the minimum 6m requirement, the proposal is located on the first floor with no real change to the ground landscape setting of the subject site. The proposal provides a 55% LOS ratio and maintains a sufficient landscaped area to the rear area of the subject site, and more than adequate side setback of 1.9m to the north to help compensate for the non-compliant rear setbacks.

Existing landscaping and rock outcrops within the rear of the site are to be retained.

Accordingly, it is found that the development satisfies this objective.

To create a sense of openness in rear yards.

Comment:

In consideration of a sense of openness, it is warranted to consider the ratio of built upon area within the rear setback area commensurate to the control requirements. In this case, the existing rear setback area is 117.2sqm, with the additional rear setback encroachment of the first floor addition being a total of 7.6sqm, as a result the proposed and existing built form represents an overall percentage of 10.7% of the total rear setback area.

The proposed first floor is not of such a height that is would become unsightly or compromise a sense of openness. The existing landscaping and rock outcrops are to be retained as are the boundary fences.

Given the ratio of space taken up by the proposed first floor, the fact that landscaping and fencing is to remain as existing, it is considered that the proposed adequate retains a sense of openness.

Accordingly, it is found that the development satisfies this objective.

• To preserve the amenity of adjacent land, particularly relating to privacy between buildings.

Comment:

The proposed development has no additional window openings on the northern or southern elevation, with the additional windows on the western elevation facing Gumboya Reserve. As a result, is not considered to be of such a scale or intensity that it would harm the amenity of adjacent land by way of visual privacy, acoustic privacy, overshadowing or perceivable visual bulk.

Accordingly, it is found that the development satisfies this objective.

To maintain the existing visual continuity and pattern of buildings, rear gardens and landscape

DA2021/1112 Page 12 of 23

elements.

Comment:

By virtue of the nature of the existing residential dwelling houses along Lyly Road, adjoining Gumboya Reserve, the proposed works are consistent with the varied rear setbacks along this immediate area. The location of the first floor is preferable to the original proposed footprint and therefore, the matching pattern of buildings and visual continuity to the adjoining sites ensures a better outcome overall is achieved.

Accordingly, it is found that the development satisfies this objective.

To provide opportunities to maintain privacy between dwellings.

Comment:

The encroachment of the proposed first floor into the rear boundary setback area is not considered to result in any unacceptable loss of privacy between neighbouring dwellings. The proposed development has no additional window openings on the northern or southern elevation, with the additional windows on the western elevation facing Gumboya Reserve.

Accordingly, it is found that the development satisfies this objective.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of WLEP 2011 / WDCP and the objectives specified in section 5(a) of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

D8 Privacy

The proposed development is designed in a manner that minimises overlooking into adjoining properties to a degree that is considered appropriate within the context of an R2 zone, particularly with regard to the design displaying no additional window openings to the northern or southern elevations. Addition windows W-17 and W-18 servicing the new bedroom and music room is orientated towards Gumbooya Reserve, and does not align (by virtue of height and setback) with any windows of a adjoining property.

Having regard to the above assessment, it is concluded that the proposed development is inconsistent with the relevant objectives of WDCP and the objectives specified in s1.3 of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is not supported, in this particular circumstance.

E7 Development on land adjoining public open space

Merit consideration:

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

• To protect and preserve bushland adjoining parks, bushland reserves and other public open spaces.

DA2021/1112 Page 13 of 23

Comment:

The proposed works does not require the removal of any vegetation within the adjacent reserve.

• To ensure that development responds to its adjacent surroundings to preserve and enhance the natural qualities of the environment.

Comment:

The proposed development is considered to respond well to the adjacent surroundings and continues to preserves the natural qualities of the environment.

 Development on land adjoining open space is to complement the landscape character and public use and enjoyment of the adjoining parks, bushland reserves and other public open spaces.

Comment:

The proposed first floor addition is consistent with the public open space landscape character. The height and siting of the first floor will be consistent with existing and surrounding dwelling houses, and will not negatively alter the visual aesthetic of the public reserve.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of WLEP 2011 / WDCP and the objectives specified in s1.3 of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly affect threatened species, populations or ecological communities, or their habitats.

CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

POLICY CONTROLS

Northern Beaches Section 7.12 Contributions Plan 2021

As the estimated cost of works is less than \$100,001.00 the policy is not applicable to the assessment of this application.

CONCLUSION

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2000;
- All relevant and draft Environmental Planning Instruments;

DA2021/1112 Page 14 of 23

- Warringah Local Environment Plan;
- Warringah Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

RECOMMENDATION

THAT Council as the consent authority grant Development Consent to DA2021/1112 for Alterations and additions to a dwelling including a carport on land at Lot 1 DP 869978, 6 Lyly Road, ALLAMBIE HEIGHTS, subject to the conditions printed below:

DEVELOPMENT CONSENT OPERATIONAL CONDITIONS

1. Approved Plans and Supporting Documentation

The development must be carried out in compliance (except as amended by any other condition of consent) with the following:

a) Approved Plans

| Architectural Plans - Endorsed with Council's stamp | | | |
|---|-----------|--------------------------------------|--|
| Drawing No. | Dated | Prepared By | |
| Site Plan | 18/8/2021 | Designs by Anastasia and Nikolina | |
| Demo Ground Floor Plan | 18/8/2021 | Designs by Anastasia and Nikolina | |
| Demo First Floor Plan | 18/8/2021 | Designs by Anastasia and Nikolina | |
| Proposed Ground Floor Plan | 18/8/2021 | Designs by Anastasia and Nikolina | |
| Proposed First Floor Plan | 18/8/2021 | Designs by Anastasia and Nikolina | |

DA2021/1112 Page 15 of 23

| East & South Elevations Plan | Designs by Anastasia and Nikolina |
|-------------------------------|--------------------------------------|
| West and North Elevation Plan | Designs by Anastasia and Nikolina |

b) Any plans and / or documentation submitted to satisfy the Conditions of this consent.

In the event of any inconsistency between conditions of this consent and the drawings/documents referred to above, the conditions of this consent will prevail.

Reason: To ensure the work is carried out in accordance with the determination of Council and approved plans.

2. Prescribed Conditions

- (a) All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);
- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
 - (i) showing the name, address and telephone number of the Principal Certifying Authority for the work, and
 - (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
 - (iii) stating that unauthorised entry to the work site is prohibited.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.

- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
 - (i) in the case of work for which a principal contractor is required to be appointed:
 - A. the name and licence number of the principal contractor, and
 - B. the name of the insurer by which the work is insured under Part 6 of that Act,
 - (ii) in the case of work to be done by an owner-builder:
 - A. the name of the owner-builder, and
 - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

(e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the

DA2021/1112 Page 16 of 23

development consent must, at the person's own expense:

- (i) protect and support the adjoining premises from possible damage from the excavation, and
- (ii) where necessary, underpin the adjoining premises to prevent any such damage.
- (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
- (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

3. General Requirements

(a) Unless authorised by Council:

Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

• 8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- (b) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
- (c) At all times after the submission the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of a final Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.
- (d) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (e) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
- (f) Prior to the release of the Construction Certificate, payment of the Long Service Levy is

DA2021/1112 Page 17 of 23

required. This payment can be made at Council or to the Long Services Payments Corporation. Payment is not required where the value of the works is less than \$25,000. The Long Service Levy is calculated on 0.35% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.

- (g) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.
- (h) No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
- (i) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (j) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.) or on the land to be developed shall be removed or damaged during construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
- (k) Prior to the commencement of any development onsite for:
 - i) Building/s that are to be erected
 - ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
 - iii) Building/s that are to be demolished
 - iv) For any work/s that is to be carried out
 - v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

- (I) A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.
- (m) The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.
- (n) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.
 - (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

- (i) Swimming Pools Act 1992
- (ii) Swimming Pools Amendment Act 2009
- (iii) Swimming Pools Regulation 2018
- (iv) Australian Standard AS1926 Swimming Pool Safety
- (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming

DA2021/1112 Page 18 of 23

pools

- (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
- (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
- (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.
- (4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

FEES / CHARGES / CONTRIBUTIONS

4. Security Bond

A bond (determined from cost of works) of \$1,000 and an inspection fee in accordance with Council's Fees and Charges paid as security are required to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, and details demonstrating payment are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at www.northernbeaches.nsw.gov.au).

Reason: To ensure adequate protection of Council's infrastructure.

CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION CERTIFICATE

5. Stormwater Disposal

The applicant is to demonstrate how stormwater from the new development within this consent is disposed of to an existing approved system or in accordance with Northern Beaches Council's WATER MANAGEMENT FOR DEVELOPMENT POLICY.

Details demonstrating that the existing approved stormwater system can accommodate the additional flows, or compliance with the Council's specification are to be submitted to the Certifying Authority for approval prior to the issue of the Construction Certificate.

DA2021/1112 Page 19 of 23

Reason: To ensure appropriate provision for disposal and stormwater management arising from development.

6. **Compliance with Standards**

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure the development is constructed in accordance with appropriate standards.

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

7. Protection of Existing Street Trees

All existing street trees in the vicinity of the works shall be retained during all construction stages, and the street trees fronting the development site shall be protected by tree protection fencing in accordance with Australian Standard 4687-2007 Temporary Fencing and Hoardings, and in accordance with Section 4 of Australian Standard 4970-2009 Protection of Trees on Development Sites.

As a minimum the tree protection fencing for street tree(s) fronting the development site shall consist of standard 2.4m panel length to four sides, unless otherwise directed by an Arborist with minimum AQF Level 5 in arboriculture.

All fencing shall be located to allow for unrestricted and safe pedestrian access upon the road verge.

Should any problems arise with regard to the existing or proposed trees on public land during construction, Council's Tree Services section is to be contacted immediately to resolve the matter to Council's satisfaction and at the cost of the applicant.

Reason: Tree protection.

8. Tree and Vegetation Protection

- a) Existing trees and vegetation shall be retained and protected, including:
- i) all trees and vegetation within the site not approved for removal, excluding exempt trees and vegetation under the relevant planning instruments of legislation.
- ii) all trees and vegetation located on adjoining properties,
- iii) all road reserve trees and vegetation.
- b) Tree protection shall be undertaken as follows:
- i) tree protection shall be in accordance with Australian Standard 4970-2009 Protection of Trees on Development Sites, including the provision of temporary fencing to protect existing trees within 5 metres of development,
- ii) existing ground levels shall be maintained within the tree protection zone of trees to be retained, unless authorised by an Arborist with minimum AQF Level 5 in arboriculture,
- iii) removal of existing tree roots at or >25mm (\emptyset) diameter is not permitted without consultation with an Arborist with minimum AQF Level 5 in arboriculture,
- iv) no excavated material, building material storage, site facilities, nor landscape materials are to be placed within the canopy dripline of trees and other vegetation required to be retained,
- v) structures are to bridge tree roots at or >25mm (\emptyset) diameter unless directed by an Arborist with minimum AQF Level 5 in arboriculture on site,

DA2021/1112 Page 20 of 23

- vi) excavation for stormwater lines and all other utility services is not permitted within the tree protection zone, without consultation with an Arborist with minimum AQF Level 5 in arboriculture including advice on root protection measures,
- vii) should either or all of v), vi) and vii) occur during site establishment and construction works, an Arborist with minimum AQF Level 5 in arboriculture shall provide recommendations for tree protection measures. Details including photographic evidence of works undertaken shall be submitted by the Arborist to the Certifying Authority,
- viii) any temporary access to, or location of scaffolding within the tree protection zone of a protected tree or any other tree to be retained during the construction works is to be undertaken using the protection measures specified in sections 4.5.3 and 4.5.6 of Australian Standard 4970-2009 Protection of Trees on Development Sites,
- ix) the activities listed in section 4.2 of Australian Standard 4970-2009 Protection of Trees on Development Sites shall not occur within the tree protection zone of any tree on the lot or any tree on an adjoining site,
- x) tree pruning from within the site to enable approved works shall not exceed 10% of any tree canopy, and shall be in accordance with Australian Standard 4373-2007 Pruning of Amenity Trees,
- xi) the tree protection measures specified in this clause must: i) be in place before work commences on the site, and ii) be maintained in good condition during the construction period, and iii) remain in place for the duration of the construction works.

The Certifying Authority must ensure that:

c) The activities listed in section 4.2 of Australian Standard 4970-2009 Protection of Trees on Development Sites, do not occur within the tree protection zone of any tree, and any temporary access to, or location of scaffolding within the tree protection zone of a protected tree, or any other tree to be retained on the site during the construction, is undertaken using the protection measures specified in sections 4.5.3 and 4.5.6 of that standard.

Note: All street trees within the road verge and trees within private property are protected under Northern Beaches Council development control plans, except where Council's written consent for removal has been obtained. The felling, lopping, topping, ringbarking, or removal of any tree (s) is prohibited.

Reason: Tree and vegetation protection.

9. Road Reserve

The applicant shall ensure the public footways and roadways adjacent to the site are maintained in a safe condition at all times during the course of the work.

Reason: Public safety.

10. Survey Certificate

A survey certificate prepared by a Registered Surveyor is to be provided demonstrating all perimeter walls columns and or other structural elements, floor levels and the finished roof/ridge height are in accordance with the approved plans.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority.

Reason: To demonstrate the proposal complies with the approved plans.

CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE OCCUPATION CERTIFICATE

DA2021/1112 Page 21 of 23

11. Required Tree Planting

Trees shall be planted in accordance with the following:

i) 1x small, locally native tree is to be planted in the existing planter bed in the south-east corner of the site. Suggested species include: *Banksia serrata, Ceratopetalum gummiferum,* or *Tristaniopsis laurina.*

Tree planting shall be located within a 9m2 deep soil area wholly within the site and be located a minimum of 3 metres from existing and proposed buildings, and other trees.

Tree planting shall be located to minimise significant impacts on neighbours in terms of blocking winter sunlight, or where the proposed tree location may impact upon significant views.

Native tree planting species shall be selected from Council's list, specifically the *Native Plant Species Guide - Frenchs Forest Ward*: www.northernbeaches.nsw.gov.au/environment/native-plants/native-plant-species-guide.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to the issue of the Occupation Certificate.

Reason: To maintain environmental amenity.

12. **Stormwater Disposal**

The stormwater drainage works shall be certified as compliant with all relevant Australian Standards and Codes by a suitably qualified person. Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of any interim / final Occupation Certificate.

Reason: To ensure appropriate provision for the disposal of stormwater arising from the development.

ON-GOING CONDITIONS THAT MUST BE COMPLIED WITH AT ALL TIMES

13. Landscape Maintenance

If any landscape materials/components or planting under this consent fails, they are to be replaced with similar materials/components. Trees, shrubs and groundcovers required to be planted under this consent are to be mulched, watered and fertilised as required at the time of planting.

If any tree, shrub or groundcover required to be planted under this consent fails, they are to be replaced with similar species to maintain the landscape theme and be generally in accordance with the approved Landscape Plan and any conditions of consent.

All weeds are to be removed and controlled in accordance with the NSW Biosecurity Act 2015.

Reason: To maintain local environmental amenity.

14. Undesirable Trees

Leighton Green Cypress *Cupressocyparis leylandii* or any of its cultivars, or any other Undesirable Trees identified by Council, must not be planted on the site for the life of the development.

In the event of any inconsistency between this condition and the development application documents, this condition will prevail to the extent of the inconsistency.

DA2021/1112 Page 22 of 23

Reason: To reduce the potential for adverse amenity effects such as overshadowing, loss of views and loss of plant diversity.

In signing this report, I declare that I do not have a Conflict of Interest.

Signed

Catriona Shirley, Planner

The application is determined on 28/09/2021, under the delegated authority of:

Rodney Piggott, Manager Development Assessments
