RE: DA2021/1756 - 18 P Macpherson Street WARRIEWOOD NSW 2102

The Community Association bylaws require a lot owner wishing to make additions & alterations to submit an application to the committee for review, this process has not be followed. Further by making this alteration the lot will not have the facility to park lot owners vehicles within the lot space creating parking congestion within the estate as the vehicles now and in the future will be parked on common property. This will further exacerbate traffic congestion, parking issues and endanger residents safety.
