Subject: Harbord Hotel Upgrade

To whom this may concern,

I have seen the D/A proposal for the Harbord Hotel and have no issues with the development. I live opposite the hotel and the sound proofing upgrade and measures to address noise in my perspective has been to the highest standard. The management team has been considerate to all neighbours regarding noise and behaviour of patrons when entering and leaving the venue.

I have no objections to the submission.

Yours sincerely
Rachel Ezzy
