

Natural Environment Referral Response - Biodiversity

Application Number:	DA2024/1216
Proposed Development:	Alterations and additions to Marina facilities
Date:	30/09/2024
Responsible Officer	Maxwell Duncan
Land to be developed (Address):	Lot 10 DP 1192010 , Gourlay Avenue BALGOWLAH NSW 2093 Lot 1 DP 793093 , 0 Gourlay Avenue BALGOWLAH NSW 2093

Reasons for referral

This application seeks consent development on land, or within 40m of land, containing:

- All Development Applications on
- Actual or potential threatened species, populations, ecological communities, or their habitats;
- Wildlife corridors;
- Vegetation query stipulating that a Flora and Fauna Assessment is required;
- Vegetation query - X type located in both A & C Wards;

And as such, Council's Natural Environment Unit officers are required to consider the likely potential environmental impacts.

Officer comments

The comments in this referral relate to the following applicable controls and provisions:

- NSW Biodiversity Conservation Act 2016
- NSW Biodiversity Conservation Regulation 2017
- Manly LEP Clause 6.5 Terrestrial Biodiversity

The proposal is unlikely to impact upon terrestrial native flora and fauna and will not require the removal of any native vegetation. Given the proximity to Areas of Outstanding Biodiversity and Little penguin habitat (*Eudyptula minor*), conditions are recommended to avoid and minimise impacts as recommended in the submitted Aquatic Ecology report.

The development is designed, sited and will be managed to avoid any significant adverse environmental impact.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

Recommended Natural Environment Conditions:

CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION CERTIFICATE

Compliance with Ecologist's Recommendations – Pre-construction

All little blue penguin impact mitigation measures specified in the approved Aquatic Ecology are to be implemented at the appropriate stage of development.

Compliance with these measures is to be certified by the Project Ecologist in writing to the Principal Certifier prior to issue of any Occupation Certificate.

Reason: To confirm compliance with wildlife and habitat protection/replacement measures.

No Clearing of Vegetation

Unless otherwise exempt, no vegetation is to be cleared prior to issue of a Construction Certificate.

Details demonstrating compliance are to be submitted to the Certifier prior to issue of Construction Certificate.

Reason: To protect native vegetation.

CONDITIONS THAT MUST BE ADDRESSED PRIOR TO ANY COMMENCEMENT

Pre-demolition check of penguin habitat

Prior to commencement of demolition works, a suitably qualified ecologist is to confirm that no penguins are breeding or moulting on the site or within 20m of the site. If penguins or bandicoots are found on the site, works must cease and advice must be sought from the site ecologist.

Reason: Wildlife protection

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

Pre-clearance Survey

Any habitat for native wildlife (including tree hollows) approved for removal is to be inspected for native wildlife prior to its removal. If native wildlife is found within habitat to be removed, a licensed wildlife rescue and rehabilitation organisation must be contacted for advice.

Any incidents in which native wildlife are injured or killed as a result of works are to be recorded, in addition to details of any action taken in response.

Written evidence of compliance (including records of inspections and any wildlife incidents) is to be provided to the Principal Certifier prior to any Occupation Certificate.

Reason: To protect native wildlife.

Wildlife Protection

If construction activity associated with this development results in injury or displacement of a native mammal, bird, reptile or amphibian, a licensed wildlife rescue and rehabilitation organisation must be contacted for advice.

Reason: To protect native wildlife.

Protection of Habitat Features

All natural landscape features, including any rock outcrops, native vegetation and/or watercourses, are to remain undisturbed during the construction works, except where affected by necessary works detailed on approved plans.

Reason: To protect wildlife habitat.

CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE OCCUPATION CERTIFICATE

No Weeds Imported On To The Site

No Priority or environmental weeds (as specified in the Northern Beaches Local Weed Management Plan) are to be imported on to the site prior to or during construction works.

Details demonstrating compliance are to be submitted to the Principal Certifier prior to issue of any Occupation Certificate.

Reason: To reduce the risk of site works contributing to spread of Priority and environmental weeds.

ON-GOING CONDITIONS THAT MUST BE COMPLIED WITH AT ALL TIMES

Protection of Habitat Features

All natural landscape features, including any rock outcrops, native vegetation, soil and/or watercourses, are to remain undisturbed except where affected by necessary works detailed on approved plans.

Reason: To protect wildlife habitat.

Control of Domestic Dogs/Cats

Domestic dogs and cats are to be kept from entering wildlife habitat areas at all times.

Dogs and cats are to be kept in an enclosed area and/or inside the dwelling, or on a leash such that they cannot enter areas of wildlife habitat, bushland or foreshore unrestrained, on the site or on surrounding properties or reserves.

Reason: To protect native wildlife and habitat.
