RE: DA2018/1924 - Forest Way FRENCHS FOREST NSW 2086

Please consider a suitable entry/exit point from the new development at Forest way shops that takes the traffic on and off the main arterial routes (Forest Way and Warringah Rd) and NOT the local back streets. We live in the surrounding streets and are very concerned that the traffic in our street will increase significantly if the only way to head south from the shops is on Grace avenue. Already there are too many cars on Grace avenue!
Thank you for considering this.
