Reasons for referral

This application seeks consent for the following:

- All Development Applications on land, and located within 40 metres of land, containing a watercourse, or
- All Development Applications on land containing a wetland, or located within 100m of land containing a wetland,
- All Development Applications on land that is mapped as "DCP Map Waterways and Riparian Land".

And as such, Council's Natural Environment Unit officers are required to consider the likely impacts on drainage regimes.

Officer comments

This application has been assessed against relevant legislation and policy relating to waterways, riparian areas, and groundwater.

As this site drains into Manly Lagoon , the development must not significantly impact on the biophysical, hydrological or ecological integrity of these waters, or on the

quantity and quality of surface and ground water flows to creeks or the lagoon.

No utilities or services are to be placed in the riparian corridor, all services and utilities must remain within in the fenced area as illustrated in the Statement of Environmental Effects prepared by Zaccaria Concerts and Touring .

This application, subject to conditions, is supported as it is unlikely to have an adverse effect on the integrity and resilience of the biophysical, ecological and hydrological environment of Manly Lagoon and its surrounding environment if conditions are adhered to.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

Recommended Natural Environment Conditions:

**CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION
CERTIFICATE**

Utilities and Services

Utility and service lines are not to be located within riparian zones, unless they:

- a) Do not require access tracks for maintenance or other purposes; and
- b) Do not restrict existing vegetation or rehabilitation.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: Protection of waterways and riparian lands.
