**RE: DA2019/0191 - 2 A West Street BALGOWLAH NSW 2093**

I would like to object to this Development Application. It will result in significant destruction of degradation of bushland, and a noticeable reduction of green space in the area.

Native fauna, including a large population of bush turkeys, live in these nature strips. This development would be very detrimental to them and the other abundant fauna in the area.

I strongly oppose this development application.
