**RE: DA2019/1234 - 0 Wharves And Jetties MANLY NSW 2095**

I've moved to Manly 3 months ago with my husband. While the natural beauty and the closeness was the initial draw to this location I have now come to realization that Manly is just a big booze town with medium age of 30 years. There is partying going on on any given day in local parks and beaches which create noise and disturbance for residence who want to carry on with quieter lives. This new development at the Wharf would definitely be the last straw for us to get out of Manly as soon as our lease expires. Who wants more drunken people on their streets? There are much better ways to develop this town. It has character but it needs to grow up.
