RE: DA2020/1453 - 4 Collaroy Street COLLAROY NSW 2097

My name is Bailey Dwyer and I am a Patrol Captain at Collaroy SLSC club and I sit on the general committee.

As an active member of the surf club I can see this development having huge advantages for the community. Parking is always an issue at collaroy and the proposed development will provide more parks for the community which will promote more visitors to the area boosting the local economy. The modern design of the development will breathe some fresh life into the community and create a beautiful contrast with some of the older buildings in the area which could promote further developments on the future.

As an active member of the Collaroy community I look forward to seeing this development approved and seeing its benefits in the area.
