Subject: Additional Submission - DA2021/2582 - Lot 106 DP 17189 58 Whale Beach Road Avalon Beach - Landscape Referral Response

Attention: Julie Edwards

Our personal information is provided for councils use only - please redact this information appropriately.

This is an additional submission, and please refer to our previous submission which has not yet been addressed by council.

Given the swimming pool in the above DA falls under the "landscaped area" on the submitted plans, no provision for pool overflow has been indicated on the plans and we would request that this detail is covered off in councils' Landscape response please.

Also, of concern is that no sedimentary controls on the western boundary for the duration of construction are indicated and we request that this detail is covered off in one of councils' responses.

Can you please advise?

Regards,

[REDACTED]
