RE: DA2024/0739 - 18 A Government Road BEACON HILL NSW 2100

Hi

I'm would like to know is there a turning bay for the car reversing out of the proposed garage ?

If the granny flat is in the front yard how does a car do a turn to be able to drive out forward ?
It's my understanding that in 2 blocks one behind the other that you need a turning bay for a car to be able to drive forward out of the long driveway
