RE: DA2020/1758 - 11 Lewis Street BALGOWLAH HEIGHTS NSW 2093

Proposed demolition and major earthworks would be especially disruptive to children in the adjacent school and hazardous to their walking to and from school.
The proposed centre would result in a dangerous increase to the already heavy and hazardous traffic on Lewis street and the surrounding school drop off rabbit run, not to mention the crossing joining the two school campuses - an accident waiting to happen.
