RE: DA2018/1481 - 1 / 0 Veterans Parade NARRABEEN NSW 2101

I would like to submit my strong objection to the above application. Being a resident of the area for over 30 years I find this type of development to be totally out of character for the area. The proposed site is surrounded by both aged care facilities, preschools, primary schools not to mention the residents living in the surrounding streets. This type of development surely belongs away from such a built up area as the long term exposure effects are not known. It also calls into question the administration of the War Vets who would allow such a development within their facility.
