### Officer comments

The comments in this referral relate to the following applicable controls and provisions:

- SEPP (resilience and hazards) 2021 - Coastal environment area

The proposed works would require the removal of a single prescribed tree which is not endemic to the area. No objections are raised subject to planting of a locally endemic tree replacement. This will be conditioned.

The development is designed, sited and will be managed to avoid any significant adverse environmental impact.

The proposal is therefore supported.
