RE: DA2021/2173 - 394 Barrenjoey Road NEWPORT NSW 2106

Newport Surf Lifesaving Club is an integral part of the community and one of the most successful SLSC in Australia and is in desperate need of an upgrade of the facilities that caters for the success that the club. I am very concerned that the participants and local community members will move to other clubs or not stay involved in the community if the facility is not dramatically improved.
