Clause 4.3 of the Contributions Plan advises that the total contribution is attributable to the net increase in infrastructure demand. This clause stipulates that the applicant must demonstrate a case for the existing development to be taken into consideration in the calculation of the required contribution. There has been no information submitted with this application demonstrating the quantum of existing approved development.

Clause 6.3.1 of the Contributions Plan stipulates that the contribution rates in the plan will be adjusted to reflect quarterly movements in the Consumer Price Index (CPI) as published by the Australian Bureau of Statistics. The next CPI adjustment will be published on 30 October 2019. If the development application is not determined before this date, the contribution amount will need to be updated to reflect the amended contribution rates.
