**RE: DA2021/2116 - 145 Old Pittwater Road BROOKVALE NSW 2100**

It is great to see the proposal as set out in this development application as the Northern Beaches is in desperate need of new / state of the art facilities like this, that promote the health and welling of the residents. The combination of swimming facilities, hydrotherapy along with a rehabilitation, recovery and wellness centre is like nothing else on the northern beaches will provide health benefits across the whole community, from families to serious athletes as well providing Accessible services (for the disabled and elderly).

Its exciting to know that this development that will cater across a number of demographics and focussing on aquatic activities, as there is a significant lack of swimming centres on the north beaches. Its location, being so close to the mall, looks great for families who would access the centre.

I would hope the council also understand the significant benefits that such a facility brings to the local area and the residents and will support this development.
