**Subject:** Proposed Development DA 2019/0342 79A Lauderdale Ave Fairlight.

From R L and P G Adams, 75 Lauderdale Ave Fairlight. (phone 02 99487176)

We continue to object to the proposed development as being outside Council height and number of stories regulations and the detrimental precedent) (long term creep) this could establish for other properties in our areas. The increased height would also impact on the light/sun on our property. Also, it is very difficult to see what, if any significant changes have been made since the earlier development application; it really seems like the applicants are trying to wear us down and confuse. Enough is enough.

Yours faithfully,  
Robert and Pam Adams
