Consideration of Application		
The proposal seeks consent for the construction of a seniors living development. Heritage identified the property as being of potential heritage significance in the prelodgement report for this site and indicated it would require a heritage report to be produced as part of any future application. This report was to investigate the history of the site and assess its significance against the NSW Heritage Office's criterion for listing. As no report assessing the significance of the site has been included with the application, Heritage is unable to determine the level of impact. Heritage recommends such a report be prepared and submitted.
