Dear council ,
A market builds connections and community over a coffee. This often starts early in the morning from 7 onwards. Even on a Sunday a proportion of people always come early. The extra hour will add to the connections and sense of community, and hopefully go some way to decrease frustration. " you have coffee , i have money " conversation over heard last week. Also it will go some way to the number of bread or vegetables etc that do not get sold .

Please consider a earlier opening .

Kind regards
Kathleen Chapman
