Officer comments

Council's Biodiversity Referrals team have assessed the Development Application for compliance against the following applicable provisions:

- Warringah DCP cl. E2 Prescribed Vegetation
- Warringah DCP cl. E6 Retaining Unique Environmental Features

The Arboricultural Impact Assessment (Ezi Grow, February 2025) submitted with the application assessed 11 trees within proximity to the proposed secondary dwelling. All trees are proposed for retention, and as such the development is situated and designed to minimise the impact on prescribed vegetation, including remnant canopy trees, understorey vegetation, and ground cover species.

No objections in relation to biodiversity, subject to recommended conditions.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
