

Landscape Referral Response

Application Number:	DA2020/0227
Date:	25/03/2020
Responsible Officer:	Gareth David
Land to be developed (Address):	Lot 7 DP 21934 , 12 Goodwin Road NEWPORT NSW 2106

Reasons for referral

This application seeks consent for the following:

- Construction / development works within 5 metres of a tree or
- New residential works with three or more dwellings. (RFB's, townhouses, seniors living, guesthouses, etc). or
- Mixed use developments containing three or more residential dwellings.
- New Dwellings or

Officer comments

The development application is for the installation of a pre-fabricated swimming pool, a timber deck and landscaped surrounds to the rear yard including a timber deck and retaining walling.

The proposal, in terms of landscape outcome, is acceptable subject to the protection of the existing trees and vegetation, and the completion of landscaping.

Council's Landscape section has assessed the proposal against the following Pittwater 21 DCP Controls:

B4.22 Preservation of Trees and Bushland Vegetation

C1.1 Landscaping

D10 Newport Locality

Within the rear yard, no significant native trees 5 metres and over in height exist that require Council approval for removal. The development proposal indicates the pruning of the existing large Frangipani tree. Removal of the existing shrub hedge along the rear boundary, and removal of the existing Exempt palms is permitted.

Under DCP control B4.22, A *"significant tree"* is a tree that is over 5.0m in height and, that impacts on the streetscape by virtue of its size, appearance, type, age, condition and heritage/cultural significance. It includes hollow-bearing trees and/or trees of conservation significance or habitat value.

No Arboricultural Impact Assessment report is required for this application, which results in no impact to existing trees that are protected trees under B4.22. Conditions of consent shall be imposed to ensure the protection of existing trees and vegetation nominated for retention.

A Landscape Plan is submitted with the development application satisfying the DA Lodgement Requirements and completion of the landscape proposal is subject to conditions to ensure the landscape controls of the DCP are satisfied.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

Recommended Landscape Conditions:

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

Tree and vegetation protection

- a) Existing trees and vegetation shall be retained and protected as identified on the Site Plan 1 of 2, revision D, submitted by Landscape Design by Jacqui Ray, including:
- i) all trees and vegetation within the site not approved for removal, excluding exempt vegetation under the relevant planning instruments of legislation,
 - ii) all trees and vegetation located on adjoining properties,
 - iii) all road reserve trees and vegetation.
- b) Tree protection shall be generally undertaken as follows:
- i) all tree protection shall be in accordance with AS4970- 2009 Protection of Trees on Development Sites,
 - ii) removal of existing tree roots greater than 25mm is not permitted without consultation with a qualified AQF minimum Level 5 Arborist,
 - iii) existing ground levels shall remain under the tree protection zone of trees to be retained, unless authorised by a qualified AQF minimum Level 5 Arborist,
 - iv) any tree roots exposed during excavation with a diameter greater than 25mm within the tree protection zone must be assessed by a qualified AQF minimum Level 5 Arborist. Details including photographic evidence of works undertaken shall be submitted to the Certifying Authority,
 - v) to minimise the impact on trees and vegetation to be retained and protected, no excavated material, building material storage, site facilities, nor landscape materials are to be placed within the canopy dripline of trees and other vegetation required to be retained,
 - vi) no tree roots greater than 25mm diameter are to be cut from protected trees unless authorised by a qualified AQF minimum Level 5 Arborist on site,
 - vii) all structures are to bridge tree roots greater than 25mm diameter unless directed by a qualified AQF minimum Level 5 Arborist on site,
 - viii) excavation for stormwater lines and all other utility services is not permitted within the tree protection zone, without consultation with a a qualified AQF minimum Level 5 Arborist, including advice on root protection measures,
 - ix) should either or all of vi), vii) and viii) occur during site establishment and construction works, a qualified AQF minimum Level 5 Arborist shall provide recommendations for tree protection measures. Details including photographic evidence of works undertaken shall be submitted by the Arborist to the Certifying Authority,
 - x) any temporary access to, or location of scaffolding within the tree protection zone of a protected tree or any other tree to be retained during the construction works, is to be undertaken using the protection measures specified in sections 4.5.3 and 4.5.6 of AS 4970-2009,
 - xi) tree pruning to enable construction shall not exceed 10% of any tree canopy, and shall be in accordance with AS4373-2009 Pruning of Amenity Trees.
- c) All protected trees within the site under a)i are to be retained for the life of the development, or for their safe natural life. Trees that die or are removed by approval must be replaced with a locally native canopy tree.

Reason: to retain and protect significant planting on development and adjoining sites.

Note: no other existing vegetation is approved for removal. Any subsequent request for tree or

vegetation removal is subject to a Section 4.55 modification application, excluding exempt vegetation under the relevant planning instruments of legislation.

CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE OCCUPATION CERTIFICATE

Landscape completion

Landscaping is to be implemented in accordance with the Landscape Plans 1 of 2 and 2 of 2, revision D, submitted by Landscape Design by Jacqui Ray, inclusive of the following additional requirements:

- i) the existing hedge removed along the rear boundary is to be replaced with a similar shrub hedge, planted at a minimum 300mm pot size container,
- ii) all other planting shall be in accordance with the Landscape Plans.

Prior to the issue of an Occupation Certificate, a landscape report prepared by a landscape architect or landscape designer shall be submitted to the Certifying Authority, certifying that the landscape works have been completed in accordance with the Landscape Plans and any conditions of consent.

Reason: to ensure that the landscape treatments are installed to provide landscape amenity and soften the built form.

ON-GOING CONDITIONS THAT MUST BE COMPLIED WITH AT ALL TIMES

Landscape maintenance

Any existing landscaping including trees required to be retained together with any additional landscaping required by this consent is to be maintained for the life of the development.

A 12 month establishment period shall apply for all new landscaping. If any landscape materials/components or planting under this consent fails, they are to be replaced with similar materials/components. All tree and vegetation planting must be maintained for the life of the development, or for their safe useful life expectancy. Planting that may die or is approved for removal must be replaced.

Reason: to maintain local environmental amenity and ensure landscaping continues to soften the built form.
