Subject: da2020/0552

ATTN: LASHTA HAIDARI ,

REF: DA2020/0552

The above proposed re-development directly affects the physical and psychological health of the current residents .The proposal will with demolitions and resultant construction work produce the following. Incessant noise , ground vibrations , dust particles , hazardous fibres :ect. All of this in the confines of a Aged care facility ,a retirement village and a Strata title complex predominantly populated by vulnerable people .

Would the Mayor and the Council please refer DA2020/0552 to NSW HEALTH ,and really the COMMONWEALTH DEPARTMENT OF HEALTH .

WHAT'S THE POINT IN HAVING ROYAL COMMISSIONS INTO AGED CARE AND NURSING HOMES WHEN THESE KIND OF PROPOSALS ARE PUT FORWARD ???

My first paragraph indicates the hazards that would have to be endured by people with existing morblities ,let's not entertain preventable mortalities .

Yours Faithfully ,

Terrence Flower
