sizes and architectural styles located on irregular shaped or battle-axe allotments. Due to the topography of the land, many sites in the vicinity enjoy district and water views towards the south.

#### SITE HISTORY

The land has been used for residential purposes for an extended period of time. A search of Council's records has revealed the following relevant history:

#### DA2020/0099

The development consent subject to this modification application proposed alterations and additions to a dwelling house including a swimming pool and was approved on 11 March 2020.

#### **ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)**

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared and is attached taking into all relevant provisions of the Environmental Planning and Assessment Act 1979 and associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon all lands whether nearby, adjoining or at a distance;
- Consideration was given to all documentation provided (up to the time of determination) by the applicant, persons who have made submissions regarding the application and any advice given by relevant Council / Government / Authority Officers on the proposal;

| environmental impact, and  | The modification, as proposed in this application, is considered to be of minimal environmental impact for the following reasons:   |  |  |  |
|  | The original development application sought consent for alterations and additions to an existing dwelling house including a paved deck to adjoin the rear of the dwelling at the lower ground floor, extension of the existing rear balcony at ground floor level, construction of a roof over part of balcony, new windows, new front entry and construction of an in-ground swimming pool within the northern portion of the rear yard.   |  |  |  |
|  | The proposed modification works do not alter any setbacks or overall built form controls, whilst the overall building height is unchanged as the works are situated below the existing ridge height. Furthermore, the streetscape appearance is also unaffected as the modified works are situated to the rear of the property. As a result, the spatial relationship of the proposed works to adjoining properties is maintained with a complimentary and compatible streetscape presentation. |  |  |  |
|  | As the proposed modification is not considered to increase the scope of the works to an extent that an unreasonable adverse impact will be incurred to the amenity or desired future character of the locality, Council can be satisfied that the modified works are of minimal environmental impact.   |  |  |  |

# State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

#### SEPP 55 - Remediation of Land

Clause 7 (1) (a) of SEPP 55 requires the Consent Authority to consider whether land is contaminated. Council records indicate that the subject site has been used for residential purposes for a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under Clause 7 (1) (b) and (c) of SEPP 55 and the land is considered to be suitable for the residential land use.

# SEPP (Infrastructure) 2007

#### Ausgrid

Clause 45 of the SEPP requires the Consent Authority to consider any development application (or an application for modification of consent) for any development carried out:

- within or immediately adjacent to an easement for electricity purposes (whether or not the electricity infrastructure exists).
- immediately adjacent to an electricity substation.
- within 5.0m of an overhead power line.
- includes installation of a swimming pool any part of which is: within 30m of a structure supporting an overhead electricity transmission line and/or within 5.0m of an overhead electricity power line.

#### Comment:

The proposal was referred to Ausgrid. No response has been received within the 21 day statutory period and therefore, it is assumed that no objections are raised and no conditions are recommended.
