Officer comments

The application seeks approval for alterations and additions to an existing dwelling, including the construction of a new deck, in-ground swimming pool and carport. Council's Natural Environment Unit - Biodiversity referral team have reviewed the application for consistency against the relevant environmental legislation and controls, including:

Biodiversity Conservation Act 2016 (BC Act) State Environmental Planning Policy (Coastal Management) 2018

- Coastal Environmental Area

Warringah Development Control Plan (WDCP)

- Clause E2 Prescribed Vegetation
- Clause E6 Retaining unique environmental features

The application does not require the removal of prescribed trees or vegetation, nor is it likely to impact on nearby biodiversity values. Subject to conditions the Bushland and Biodiversity referral team find the application to be consistent against relevant environmental controls.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
