RE: DA2020/1756 - 353 Barrenjoey Road NEWPORT NSW 2106

Our family is opposed to this application. Robertson Road is a unique central position in Newport that must be developed in conjunction with the Master Plan. It must not be developed as a high traffic access point to underground parking. We the local community strongly urge the council to implement the village Master Plan now on not lose this opportunity to create the central heart of our village.

We are not opposed to development but this area can and should be developed into something truly special. We need the council to support the local community and get this right.
