RE: DA2020/1039 - 15 Jubilee Avenue WARRIEWOOD NSW 2102

This proposal is completely unacceptable. We do not need a private bus service as the current Blo e service is more than adequate, reliable and well patronised.

The storage of the large amount of fuel on site is highly dangerous to adjacent premises.

The movement of buses throughout the day and evening on residential streets is also unacceptable. The area does not need an increase in road traffic as the hosing developments in Warriewood Valley over the last two decades are sufficient.
