**RE: DA2021/1164 - 521 Barrenjoey Road BILGOLA BEACH NSW 2107**

I strongly disagree with the proposed development along the Bends. The significant construction will cause immense impacts to traffic flow-through and traffic safety, including aggravated issues from the increasing number of cyclists using this road in addition to the large volume of cars.

This development will also destroy the character of this part of the northern beaches where we are already losing a large amount of green space and trees. I would ask that this development is rejected due to impacts on traffic, on the character of this area, and as overwhelmingly insensitive to the existing community aesthetics.
